

Snapshot with the TN22 Plus Club

Where does the time go? Cannot believe that our last session was on August 1st and it was still sunny and warm. As our theme was 'Summer Travels' it was very appropriate. We had extra drinks for members throughout the day which was eagerly drunk and wonderful cakes and scones.

We started the day reminiscing about holidays taken in our younger days. Members had a lovely time sharing their holiday exploits – even on cruise ships. This was followed by 'Singing and laughing Suzanne' who kept everyone entertained for an hour. We don't know how she does it!! With members wearing oversized sunglasses we waved pom poms, sang colour songs, passed balloons (of a sort) anddanced, a lot! Suzanne was brilliant even 'dancing' with members who couldn't get up so easily.

After a quiet time outside in the sunshine/shade singing and blowing bubbles, the members sat to watch a slideshow of my safari photographs. They thoroughly enjoyed it, especially the anecdotes of dug up roads, rhinos looking as though they would charge and elephants on the move towards us, and asked some questions at

the end which was great, as it showed that they had understood what I was talking about!! One member even apologised for falling asleep.

A cup of tea was definitely the order of the day afterwards, followed by 'going home', and with one member telling me that "this is the best day I have had here", it made a very worthwhile day for us all.
